

## **The Richard Siegel Park Renovation and Usage Plan**

### **Short-Range Plan (September-December, 2014)**

- Continue to promote the growth of the turf grass (turf will grow through October 15<sup>th</sup>)
- Over seed fields 6-10 with rye and other areas as needed (repeat as needed)
- Promote play and limit practice
- Continue to improve off-site practice areas
- Rotate field usage to limit impact to the playing surface
- Monitor weather and adjust watering and maintenance as needed
- Purchase an additional set of goals for off-site usage
- Continue seeking the advice of Joel Beckham
- Evaluate the turf before winter and take measures to avoid winter kill

### **Mid-Range Plan (January -August 15, 2015)**

- Purchase additional turf equipment (deep core aerator, core processor, verti-cutter, turf vacuum)
- Hire a professional turf manager for Parks and Recreation (seek advice of Joel until hired)
- Evaluate fields during winter and take any additional measures possible to minimize winter damage
- Employ the services of a professional A & E firm to evaluate the development of a quality practice facility and to evaluate 4 to 5 school sites for joint usage
- Evaluate turf early/mid/late spring to determine the condition and measures needed to have turf fully established by August 15<sup>th</sup> – sod all areas that need attention
- Address drainage issues

### **Long-Range Plan (August 16, 2015- August 15, 2017)**

- Continue to monitor the turf and amount of usage to ensure maximum turf success
- Develop plans and construct a quality practice facility
- Develop 4 to 5 school sites for joint usage with practice/game facilities
- Develop additional facilities in the proposed West Park
- Explore the possibility of lighting fields 12-15
